

# WISCONSIN COOPERATIVE WILDLIFE DAMAGE ABATEMENT AND CLAIMS PROGRAM PARTICIPANT LIST

2006

Wisconsin's Wildlife Damage Program has requirements which farmers need to fulfill for program assistance. The core requirement of this program is hunting access. HUNTING ON LANDS NOT ENROLLED IN THE PROGRAM, WITHOUT PERMISSION OF THE LANDOWNER, IS TRESPASSING. Parking is restricted to designated areas; vehicular access is prohibited; and use of existing hunting HUNTING, HUNTING ACCESS, OR ANY OTHER ACTIVITY THAT INCLUDES HUNTING THE SPECIES CAUSING THE DAMAGE. Hunting is only allowed for the species causing the damage, unless authorized by the landowner. Each farmer has two options available to them for assistance. Each option has a hunting access requirement. The first wildlife damage program option is **OPEN PUBLIC HUNTING (OPH)**. This option provides the farmer with all program services. Hunting access on the property enrolled is unlimited for the species causing the damage, but the hunter must notify the enrollee or their plans to hunt. The hunter is responsible to limit their hunting only to properties enrolled in the program. The second wildlife damage program option is **MANAGED HUNTING ACCESS (MHA)**. Under this plan, the farmer's enrolled property is assigned a minimum daily hunting requirement. This hunting access requirement is the number of hunters that need to be allowed access, based on 2 hunters/40 acres of huntable land. The hunting access is based on "presence of" language. This means that enrollees may not deny permission unless their hunting requirement is met with hunters on the property at that exact time. Hunters must contact the participating farmer and obtain permission. The farmer is required to keep a daily hunting log to document the hunting access requirement. Farmers that received a **Shooting Permit** for the species causing the damage are required to enroll in the Wildlife Damage Abatement and Claims Program. Access hunters, who seek to hunt during the regular hunting season using their regular licenses and tags, may receive an extra tag under an enrollee's **Shooting Permit**. The farmer has sole discretion for **Shooting Permit** tag distribution. However, **Shooting Permit** tag denial in NOT hunting access denial.

\*Remember, farmers are not required to allow you to use their agricultural deer damage shooting permits tags, but they are required to allow you onto their property to hunt, using your own tags, during all open seasons for the species for which they are enrolled. If a hunter is refused access and feels that the farmer was not in compliance with the hunting requirement, or the farmer has charged some type of hunting fee for the species causing damage, a complaint can be filed with this office. Complaints must be in writing and contain the following: name of the farmer, the date and time of the alleged violation, how contact was made (by telephone or in person), type of hunting that was requested (archery, gun, or shooting permit), specific date (s) hunting was requested, stated reason for the denial by the farmer, the name, telephone number and address of the hunter, and the hunter's signature. The county damage specialist or WDNR will investigate these complaints. The investigating agency may request additional information, as they deem necessary to the investigation. Remember, farmers may deny access for reasonable cause to individuals who exhibit intoxication, vandalism, littering, reckless conduct, or property damage, or who do not comply with the 12 listed requirements on the Log Agreement form. Reasonable cause may not be based on age, race, religion, color, sex, handicap, physical condition, developmental disability, creed, sexual orientation or national origin. Complaints should be filed within **10 days** of the denial. Direct complaints to: **Adams County** Wildlife Damage Abatement and Claims Program, 1201 Storbeck Drive, Waupun, WI 53963 1-920-324-4514

+Hunting requirement is shared with Allan & Lowell Hoffmann.

\*Remember, farmers are not required to allow you to use their agricultural deer damage shooting permits tags, but they are required to allow you onto their property to hunt, using your own tags, during all open seasons for the species for which they are enrolled. If a hunter is refused access and feels that the farmer was not in compliance with the hunting requirement, or the farmer has charged some type of hunting fee for the species causing damage, a complaint can be filed with this office. Complaints must be in writing and contain the following: name of the farmer, the date and time of the alleged violation, how contact was made (by telephone or in person), type of hunting that was requested (archery, gun, or shooting permit), specific date (s) hunting was requested, stated reason for the denial by the farmer, the name, telephone number and address of the hunter, and the hunter's signature. The county damage specialist or WDNR will investigate these complaints. The investigating agency may request additional information, as they deem necessary to the investigation. Remember, farmers may deny access for reasonable cause to individuals who exhibit intoxication, vandalism, littering, reckless conduct, or property damage, or who do not comply with the 12 listed requirements on the Log Agreement form. Reasonable cause may not be based on age, race, religion, color, sex, handicap, physical condition, developmental disability, creed, sexual orientation or national origin. Complaints should be filed within **10 days** of the denial. Direct complaints to: **Columbia County** Wildlife Damage Abatement and Claims Program, 1201 Storbeck Drive, Waupun, WI 53963 1-920-324-4514

# WISCONSIN COOPERATIVE WILDLIFE DAMAGE ABATEMENT AND CLAIMS PROGRAM

## PARTICIPANT LIST

### 2006

Wisconsin's Wildlife Damage Program has requirements which farmers need to fulfill for program assistance. The core requirement of this program is hunting access. HUNTING ON LANDS NOT ENROLLED IN THE PROGRAM, WITHOUT PERMISSION OF THE LANDOWNER, IS TRESPASSING. Parking is restricted to designated areas; vehicular access is prohibited; and use of existing hunting stands or blinds is prohibited, unless specific permission is granted by the enrollee. ENROLLEES SHALL NOT CHARGE ANY FEES FOR HUNTING, HUNTING ACCESS, OR ANY OTHER ACTIVITY THAT INCLUDES HUNTING THE SPECIES CAUSING THE DAMAGE. Hunting is only allowed for the species causing the damage, unless authorized by the landowner. Each farmer has two options available to them for assistance. Each option has a hunting access requirement. The first wildlife damage program option is **OPEN PUBLIC HUNTING (OPH)**. This option provides the farmer with all program services. Hunting access on the property enrolled is unlimited for the species causing the damage, but the hunter must notify the enrollee or their plans to hunt. The hunter is responsible to limit their hunting only to properties enrolled in the program. The second wildlife damage program option is **MANAGED HUNTING ACCESS (MHA)**. Under this plan, the farmer's enrolled property is assigned a minimum daily hunting requirement. This hunting access requirement is the number of hunters that need to be allowed access, based on 2 hunters/40 acres of huntable land. The hunting access is based on "presence of" language. This means that enrollees may not deny permission unless their hunting requirement is met with hunters on the property at that exact time. Hunters must contact the participating farmer and obtain permission. The farmer is required to keep a daily hunting log to document the hunting access requirement. Farmers that received a **Shooting Permit** for the species causing the damage are required to enroll in the Wildlife Damage Abatement and Claims Program. Access hunters, who seek to hunt during the regular hunting season using their regular licenses and tags, may receive an extra tag under an enrollee's **Shooting Permit**. The farmer has sole discretion for **Shooting Permit** tag distribution. However, **Shooting Permit** tag denial in NOT hunting access denial.

# WISCONSIN COOPERATIVE WILDLIFE DAMAGE ABATEMENT AND CLAIMS PROGRAM

## PARTICIPANT LIST

### 2006

Wisconsin's Wildlife Damage Program has requirements which farmers need to fulfill for program assistance. The core requirement of this program is hunting access. HUNTING ON LANDS NOT ENROLLED IN THE PROGRAM, WITHOUT PERMISSION OF THE LANDOWNER, IS TRESPASSING. Parking is restricted to designated areas; vehicular access is prohibited; and use of existing hunting stands or blinds is prohibited, unless specific permission is granted by the enrollee. ENROLLEES SHALL NOT CHARGE ANY FEES FOR HUNTING, HUNTING ACCESS, OR ANY OTHER ACTIVITY THAT INCLUDES HUNTING THE SPECIES CAUSING THE DAMAGE. Hunting is only allowed for the species causing the damage, unless authorized by the landowner. Each farmer has two options available to them for assistance. Each option has a hunting access requirement. The first wildlife damage program option is **OPEN PUBLIC HUNTING (OPH)**. This option provides the farmer with all program services. Hunting access on the property enrolled is unlimited for the species causing the damage, but the hunter must notify the enrollee or their plans to hunt. The hunter is responsible to limit their hunting only to properties enrolled in the program. The second wildlife damage program option is **MANAGED HUNTING ACCESS (MHA)**. Under this plan, the farmer's enrolled property is assigned a minimum daily hunting requirement. This hunting access requirement is the number of hunters that need to be allowed access, based on 2 hunters/40 acres of huntable land. The hunting access is based on "presence of" language. This means that enrollees may not deny permission unless their hunting requirement is met with hunters on the property at that exact time. Hunters must contact the participating farmer and obtain permission. The farmer is required to keep a daily hunting log to document the hunting access requirement. Farmers that received a **Shooting Permit** for the species causing the damage are required to enroll in the Wildlife Damage Abatement and Claims Program. Access hunters, who seek to hunt during the regular hunting season using their regular licenses and tags, may receive an extra tag under an enrollee's **Shooting Permit**. The farmer has sole discretion for **Shooting Permit** tag distribution. However, **Shooting Permit** tag denial in NOT hunting access denial.

COUNTY: GREEN  
8/23/2006 Page 1

\*Indicates a **Shooting Permit** has been issued on this property.

Participant	Program Option	Species	Telephone	Township	Minimum # of Hunters	Huntable Acres
					Required at any "given time"	

\*Remember, farmers are not required to allow you to use their agricultural deer damage shooting permits tags, but they are required to allow you onto their property to hunt, using your own tags, during all open seasons for the species for which they are enrolled. If a hunter is refused access and feels that the farmer was not in compliance with the hunting requirement, or the farmer has charged some type of hunting fee for the species causing damage, a complaint can be filed with this office. Complaints must be in writing and contain the following: name of the farmer, the date and time of the alleged violation, how contact was made (by telephone or in person), type of hunting that was requested (archery, gun, or shooting permit), specific date (s) hunting was requested, stated reason for the denial by the farmer, the name, telephone number and address of the hunter, and the hunter's signature. The county damage specialist or WDNR will investigate these complaints. The investigating agency may request additional information, as they deem necessary to the investigation. Remember, farmers may deny access for reasonable cause to individuals who exhibit intoxication, vandalism, littering, reckless conduct, or property damage, or who do not comply with the 12 listed requirements on the Log Agreement form. # WISCONSIN COOPERATIVE WILDLIFE DAMAGE ABATEMENT AND CLAIMS PROGRAM PARTICIPANT LIST

2006

Wisconsin's Wildlife Damage Program has requirements which farmers need to fulfill for program assistance. The core requirement of this program is hunting access. HUNTING ON LANDS NOT ENROLLED IN THE PROGRAM, WITHOUT PERMISSION OF THE LANDOWNER, IS TRESPASSING. Parking is restricted to designated areas; vehicular access is prohibited; and use of existing hunting stands or blinds is prohibited, unless specific permission is granted by the enrollee. ENROLLEES SHALL NOT CHARGE ANY FEES FOR HUNTING, HUNTING ACCESS, OR ANY OTHER ACTIVITY THAT INCLUDES HUNTING THE SPECIES CAUSING THE DAMAGE. Hunting is only allowed for the species causing the damage, unless authorized by the landowner. Each farmer has two options available to them for assistance. Each option has a hunting access requirement. The first wildlife damage program option is **OPEN PUBLIC HUNTING (OPH)**. This option provides the farmer with all program services. Hunting access on the property enrolled is unlimited for the species causing the damage, but the hunter must notify the enrollee or their plans to hunt. The hunter is responsible to limit their hunting only to properties enrolled in the program. The second wildlife damage program option is **MANAGED HUNTING ACCESS (MHA)**. Under this plan, the farmer's enrolled property is assigned a minimum daily hunting requirement. This hunting access requirement is the number of hunters that need to be allowed access, based on 2 hunters/40 acres of huntable land. The hunting access is based on "presence of" language. This means that enrollees may not deny permission unless their hunting requirement is met with hunters on the property at that exact time. Hunters must contact the participating farmer and obtain permission. The farmer is required to keep a daily hunting log to document the hunting access requirement. Farmers that received a **Shooting Permit** for the species causing the damage are required to enroll in the Wildlife Damage Abatement and Claims Program. Access hunters, who seek to hunt during the regular hunting season using their regular licenses and tags, may receive an extra tag under an enrollee's **Shooting Permit**. The farmer has sole discretion for **Shooting Permit** tag distribution. However, **Shooting Permit** tag denial in NOT hunting access denial.

COUNTY: JUNEAU

\*Indicates a **Shooting Permit** has been issued on this property.

\*Remember, farmers are not required to allow you to use their agricultural deer damage shooting permits tags, but they are required to allow you onto their property to hunt, using your own tags, during all open seasons for the species for which they are enrolled. If a hunter is refused access and feels that the farmer was not in compliance with the hunting requirement, or the farmer has charged some type of hunting fee for the species causing damage, a complaint can be filed with this office. Complaints must be in writing and contain the following: name of the farmer, the date and time of the alleged violation, how contact was made (by telephone or in person), type of hunting that was requested (archery, gun, or shooting permit), specific date (s) hunting was requested, stated reason for the denial by the farmer, the name, telephone number and address of the hunter, and the hunter's signature. The county damage specialist or WDNR will investigate these complaints. The investigating agency may request additional information, as they deem necessary to the investigation. Remember, farmers may deny access for reasonable cause to individuals who exhibit intoxication, vandalism, littering, reckless conduct, or property damage, or who do not comply with the 12 listed requirements on the Log Agreement form. Reasonable cause may not be based on age, race, religion, color, sex, handicap, physical condition, developmental disability, creed, sexual orientation or national origin. # WISCONSIN COOPERATIVE WILDLIFE DAMAGE ABATEMENT AND CLAIMS PROGRAM PARTICIPANT LIST

2006

Wisconsin's Wildlife Damage Program has requirements which farmers need to fulfill for program assistance. The core requirement of this program is hunting access. HUNTING ON LANDS NOT ENROLLED IN THE PROGRAM, WITHOUT PERMISSION OF THE LANDOWNER, IS TRESPASSING. Parking is restricted to designated areas; vehicular access is prohibited; and use of existing hunting stands or blinds is prohibited, unless specific permission is granted by the enrollee. ENROLLEES SHALL NOT CHARGE ANY FEES FOR HUNTING, HUNTING ACCESS, OR ANY OTHER ACTIVITY THAT INCLUDES HUNTING THE SPECIES CAUSING THE DAMAGE. Hunting is only allowed for the species causing the damage, unless authorized by the landowner. Each farmer has two options available to them for assistance. Each option has a hunting access requirement. The first wildlife damage program option is **OPEN PUBLIC HUNTING (OPH)**. This option provides the farmer with all program services. Hunting access on the property enrolled is unlimited for the species causing the damage, but the hunter must notify the enrollee or their plans to hunt. The hunter is responsible to limit their hunting only to properties enrolled in the program. The second wildlife damage program option is **MANAGED HUNTING ACCESS (MHA)**. Under this plan, the farmer's enrolled property is assigned a minimum daily hunting requirement. This hunting access requirement is the number of hunters that need to be allowed access, based on 2 hunters/40 acres of huntable land. The hunting access is based on "presence of" language. This means that enrollees may not deny permission unless their hunting requirement is met with hunters on the property at that exact time. Hunters must contact the participating farmer and obtain permission. The farmer is required to keep a daily hunting log to document the hunting access requirement. Farmers that received a **Shooting Permit** for the species causing the damage are required to enroll in the Wildlife Damage Abatement and Claims Program. Access hunters, who seek to hunt during the regular hunting season using their regular licenses and tags, may receive an extra tag under an enrollee's **Shooting Permit**. The farmer has sole discretion for **Shooting Permit** tag distribution. However, **Shooting Permit** tag denial in NOT hunting access denial.

COUNTY: MARQUETTE

^Archery Only-within 100 yards of a building.

\*Remember, farmers are not required to allow you to use their agricultural deer damage shooting permits tags, but they are required to allow you onto their property to hunt, using your own tags, during all open seasons for the species for which they are enrolled. If a hunter is refused access and feels that the farmer was not in compliance with the hunting requirement, or the farmer has charged some type of hunting fee for the species causing damage, a complaint can be filed with this office. Complaints must be in writing and contain the following: name of the farmer, the date and time of the alleged violation, how contact was made (by telephone or in person), type of hunting that was requested (archery, gun, or shooting permit), specific date (s) hunting was requested, stated reason for the denial by the farmer, the name, telephone number and address of the hunter, and the hunter's signature. The county damage specialist or WDNR will investigate these complaints. The investigating agency may request additional information, as they deem necessary to the investigation. Remember, farmers may deny access for reasonable cause to individuals who exhibit intoxication, vandalism, littering, reckless conduct, or property damage, or who do not comply with the 12 listed requirements on the Log Agreement form. Reasonable cause may not be based on age, race, religion, color, sex, handicap, physical condition, developmental disability, creed, sexual orientation or national origin. Complaints should be filed within **10 days** of the denial. Direct complaints to: **Marquette County** Wildlife Damage Abatement and Claims Program, 1201 Storbeck Drive, Waupun, WI 53963 1-920-324-4514

# WISCONSIN COOPERATIVE WILDLIFE DAMAGE ABATEMENT AND CLAIMS PROGRAM

## PARTICIPANT LIST

### 2006

Wisconsin's Wildlife Damage Program has requirements which farmers need to fulfill for program assistance. The core requirement of this program is hunting access. HUNTING ON LANDS NOT ENROLLED IN THE PROGRAM, WITHOUT PERMISSION OF THE LANDOWNER, IS TRESPASSING. Parking is restricted to designated areas; vehicular access is prohibited; and use of existing hunting stands or blinds is prohibited, unless specific permission is granted by the enrollee. ENROLLEES SHALL NOT CHARGE ANY FEES FOR HUNTING, HUNTING ACCESS, OR ANY OTHER ACTIVITY THAT INCLUDES HUNTING THE SPECIES CAUSING THE DAMAGE. Hunting is only allowed for the species causing the damage, unless authorized by the landowner. Each farmer has two options available to them for assistance. Each option has a hunting access requirement. The first wildlife damage program option is **OPEN PUBLIC HUNTING (OPH)**. This option provides the farmer with all program services. Hunting access on the property enrolled is unlimited for the species causing the damage, but the hunter must notify the enrollee or their plans to hunt. The hunter is responsible to limit their hunting only to properties enrolled in the program. The second wildlife damage program option is **MANAGED HUNTING ACCESS (MHA)**. Under this plan, the farmer's enrolled property is assigned a minimum daily hunting requirement. This hunting access requirement is the number of hunters that need to be allowed access, based on 2 hunters/40 acres of huntable land. The hunting access is based on "presence of" language. This means that enrollees may not deny permission unless their hunting requirement is met with hunters on the property at that exact time. Hunters must contact the participating farmer and obtain permission. The farmer is required to keep a daily hunting log to document the hunting access requirement. Farmers that received a **Shooting Permit** for the species causing the damage are required to enroll in the Wildlife Damage Abatement and Claims Program. Access hunters, who seek to hunt during the regular hunting season using their regular licenses and tags, may receive an extra tag under an enrollee's **Shooting Permit**. The farmer has sole discretion for **Shooting Permit** tag distribution. However, **Shooting Permit** tag denial in NOT hunting access denial.

COUNTY: MILWAUKEE

+Hunting requirement is shared on these properties.

^Within permanent fence.

\*Remember, farmers are not required to allow you to use their agricultural deer damage shooting permits tags, but they are required to allow you onto their property to hunt, using your own tags, during all open seasons for the species for which they are enrolled. If a hunter is refused access and feels that the farmer was not in compliance with the hunting requirement, or the farmer has charged some type of hunting fee for the species causing damage, a complaint can be filed with this office. Complaints must be in writing and contain the following: name of the farmer, the date and time of the alleged violation, how contact was made (by telephone or in person), type of hunting that was requested (archery, gun, or shooting permit), specific date (s) hunting was requested, stated reason for the denial by the farmer, the name, telephone number and address of the hunter, and the hunter's signature. The county damage specialist or WDNR will investigate these complaints. The investigating agency may request additional information, as they deem necessary to the investigation. Remember, farmers may deny access for reasonable cause to individuals who exhibit intoxication, vandalism, littering, reckless conduct, or property damage, or who do not comply with the 12 listed requirements on the Log Agreement form. Reasonable cause may not be based on age, race, religion, color, sex, handicap, physical condition, developmental disability, creed, sexual orientation or national origin. Complaints should be filed within **10 days** of the denial. Direct complaints to: **Portage County** Wildlife Damage Abatement and Claims Program, 1201 Storbeck Drive, Waupun, WI 53963 1-920-324-4514

# WISCONSIN COOPERATIVE WILDLIFE DAMAGE ABATEMENT AND CLAIMS PROGRAM

## PARTICIPANT LIST

### 2006

Wisconsin's Wildlife Damage Program has requirements which farmers need to fulfill for program assistance. The core requirement of this program is hunting access. HUNTING ON LANDS NOT ENROLLED IN THE PROGRAM, WITHOUT PERMISSION OF THE LANDOWNER, IS TRESPASSING. Parking is restricted to designated areas; vehicular access is prohibited; and use of existing hunting stands or blinds is prohibited, unless specific permission is granted by the enrollee. ENROLLEES SHALL NOT CHARGE ANY FEES FOR HUNTING, HUNTING ACCESS, OR ANY OTHER ACTIVITY THAT INCLUDES HUNTING THE SPECIES CAUSING THE DAMAGE. Hunting is only allowed for the species causing the damage, unless authorized by the landowner. Each farmer has two options available to them for assistance. Each option has a hunting access requirement. The first wildlife damage program option is **OPEN PUBLIC HUNTING (OPH)**. This option provides the farmer with all program services. Hunting access on the property enrolled is unlimited for the species causing the damage, but the hunter must notify the enrollee or their plans to hunt. The hunter is responsible to limit their hunting only to properties enrolled in the program. The second wildlife damage program option is **MANAGED HUNTING ACCESS (MHA)**. Under this plan, the farmer's enrolled property is assigned a minimum daily hunting requirement. This hunting access requirement is the number of hunters that need to be allowed access, based on 2 hunters/40 acres of huntable land. The hunting access is based on "presence of" language. This means that enrollees may not deny permission unless their hunting requirement is met with hunters on the property at that exact time. Hunters must contact the participating farmer and obtain permission. The farmer is required to keep a daily hunting log to document the hunting access requirement. Farmers that received a **Shooting Permit** for the species causing the damage are required to enroll in the Wildlife Damage Abatement and Claims Program. Access hunters, who seek to hunt during the regular hunting season using their regular licenses and tags, may receive an extra tag under an enrollee's **Shooting Permit**. The farmer has sole discretion for **Shooting Permit** tag distribution. However, **Shooting Permit** tag denial in NOT hunting access denial.

\*Remember, farmers are not required to allow you to use their agricultural deer damage shooting permits tags, but they are required to allow you onto their property to hunt, using your own tags, during all open seasons for the species for which they are enrolled. If a hunter is refused access and feels that the farmer was not in compliance with the hunting requirement, or the farmer has charged some type of hunting fee for the species causing damage, a complaint can be filed with this office. Complaints must be in writing and contain the following: name of the farmer, the date and time of the alleged violation, how contact was made (by telephone or in person), type of hunting that was requested (archery, gun, or shooting permit), specific date (s) hunting was requested, stated reason for the denial by the farmer, the name, telephone number and address of the hunter, and the hunter's signature. The county damage specialist or WDNR will investigate these complaints. The investigating agency may request additional information, as they deem necessary to the investigation. Remember, farmers may deny access for reasonable cause to individuals who exhibit intoxication, vandalism, littering, reckless conduct, or property damage, or who do not comply with the 12 listed requirements on the Log Agreement form. Reasonable cause may not be based on age, race, religion, color, sex, handicap, physical condition, developmental disability, creed, sexual orientation or national origin. Complaints should be filed within **10 days** of the denial. Direct complaints to: **Walworth County** Wildlife Damage Abatement and Claims Program, 1201 Storbeck Drive, Waupun, WI 53963 1-920-324-4514

# WISCONSIN COOPERATIVE WILDLIFE DAMAGE ABATEMENT AND CLAIMS PROGRAM

## PARTICIPANT LIST

2006

Wisconsin's Wildlife Damage Program has requirements which farmers need to fulfill for program assistance. The core requirement of this program is hunting access. HUNTING ON LANDS NOT ENROLLED IN THE PROGRAM, WITHOUT PERMISSION OF THE LANDOWNER, IS TRESPASSING. Parking is restricted to designated areas; vehicular access is prohibited; and use of existing hunting stands or blinds is prohibited, unless specific permission is granted by the enrollee. ENROLLEES SHALL NOT CHARGE ANY FEES FOR HUNTING, HUNTING ACCESS, OR ANY OTHER ACTIVITY THAT INCLUDES HUNTING THE SPECIES CAUSING THE DAMAGE. Hunting is only allowed for the species causing the damage, unless authorized by the landowner. Each farmer has two options available to them for assistance. Each option has a hunting access requirement. The first wildlife damage program option is **OPEN PUBLIC HUNTING (OPH)**. This option provides the farmer with all program services. Hunting access on the property enrolled is unlimited for the species causing the damage, but the hunter must notify the enrollee or their plans to hunt. The hunter is responsible to limit their hunting only to properties enrolled in the program. The second wildlife damage program option is **MANAGED HUNTING ACCESS (MHA)**. Under this plan, the farmer's enrolled property is assigned a minimum daily hunting requirement. This hunting access requirement is the number of hunters that need to be allowed access, based on 2 hunters/40 acres of huntable land. The hunting access is based on "presence of" language. This means that enrollees may not deny permission unless their hunting requirement is met with hunters on the property at that exact time. Hunters must contact the participating farmer and obtain permission. The farmer is required to keep a daily hunting log to document the hunting access requirement. Farmers that received a **Shooting Permit** for the species causing the damage are required to enroll in the Wildlife Damage Abatement and Claims Program. Access hunters, who seek to hunt during the regular hunting season using their regular licenses and tags, may receive an extra tag under an enrollee's **Shooting Permit**. The farmer has sole discretion for **Shooting Permit** tag distribution. However, **Shooting Permit** tag denial in NOT hunting access denial.

COUNTY: WASHINGTON

\*Indicates a **Shooting Permit** has been issued on this property.
